About Me

Computer Science and Design student with strong problem-solving and analytical skills, eager to learn and adapt to new technologies, with a focused interest in software development, debugging, and building reliable system.

Education

Canara Engineering College — Mangalore, Karnataka, India
Bachelor of Engineering in Computer Science and Design — *2022 – Present*
CGPA: 8.01

Sri Venkataramana PU College — Kundapura, Karnataka, India
Class 11 and 12 (Science) — *2020 – 2022*
Percentage: 79.83%

Sri Venkataramana English Medium school — Kundapura, Karnataka, India
SSLC — *2019 – 2020*
Percentage: 89.76%

Technical Skills

Programming: Java, Basics of Python
Frontend: HTML,CSS
Database: MySQL, PostgreSQL
UI/UX: Figma, User-Centered Design
Developer Tools: Git, GitHub,VS Code

Achievements

- Participated in SAP Hackathon, contributing to the design and development of innovative solutions within tight deadlines

Projects

Electra - E Voting System for Canara 2024

- Engineered a full-stack web application simulating a secure digital voting process, featuring multi-tier user roles (admin, voter) and end-to-end encrypted data handling.
- Implemented robust voter authentication and authorization flows alongside real-time vote tallying to ensure data accuracy and election transparency
- Designed a responsive and intuitive user interface with HTML, CSS, and JavaScript, focusing on a clear user journey to minimize errors during the voting process.
- Secured the application against common vulnerabilities like SQL injection, ensuring the integrity and privacy of all cast votes.

AUTOCTI -Automated Cyber Threat Detection using AutoML 2025

- Developed a real-time system to detect, classify, and respond to cyber threats such as phishing, malware.
- Built a modular Python backend with FastAPI and AutoML for automated threat classification.
- Designed a React.js dashboard for monitoring threats, alerts, and basic visualizations.
- Implemented automated response mechanisms and streamlined threat management workflows.

Courses and Certificates

- **Udemy: PostgreSQL Bootcamp: Complete Beginner to Advanced Course** :
  Gained hands-on experience in database design, writing queries, joins, indexing, and performance optimization using PostgreSQL.
  View: Certificate
